BREATHING EXERCISES

1. 4-7-8 Breathing

- **Inhale:** Inhale slowly and deeply through your nose for a count of four.
 - **Hold:** Hold your breath for a count of seven.
 - **Exhale:** Exhale slowly and completely through your mouth, making a "whooshing" sound, for a count of eight.
 - Repeat this cycle several times.
-

2. Box Breathing (Square Breathing)

- **Inhale:** Inhale deeply through your nose for a count of four.
- **Hold:** Hold your breath for a count of four.
- **Exhale:** Exhale slowly through your mouth for a count of four.
- **Hold:** Hold your breath for a count of four.
- Repeat this cycle several times.

BREATHING EXERCISES (CONT.)

3. Belly Breathing (Diaphragmatic Breathing)

- **Position:** Lie down on your back with your knees bent or legs straight, whichever is more comfortable.
 - **Inhale:** Place one hand on your belly and the other on your chest.
 - **Inhale:** Breathe in slowly and deeply through your nose, allowing your belly to expand and rise, while keeping your chest relatively still.
 - **Exhale:** Exhale slowly through your mouth, feeling your belly contract and lower.
 - **Repeat:** Repeat this for several minutes.
-

4. Alternate Nostril Breathing

- **Inhale:** Inhale deeply through your left nostril.
 - **Hold:** Close the left nostril and exhale slowly through the right nostril.
 - **Inhale:** Inhale through the right nostril.
 - **Hold:** Close the right nostril and exhale through the left nostril.
 - **Repeat:** Continue alternating nostril breathing for several minutes.
-

5. Resonant Breathing (Coherent Breathing)

- **Position:** Sit or lie down comfortably with good posture.
- **Inhale:** Inhale slowly and deeply through your nose for a count of six seconds.
- **Exhale:** Exhale slowly and gently through your mouth for a count of six seconds.
- **Repeat:** Continue this for several minutes.
